

i believe klove is great source of family entertainment and info in our local community. we use it to find family events going on in the metro. i feel if we lost klove it would leave many of us without a christian perspective on current events and music. i am not afraid to let my child listen to klove.NO nasty mouth dj and his two cents worth. i believe klove is the one radio station that has the community and my best interest at heart. we are informed of issues that concern us and our christian belief. i hear news info about things i would not hear on any other station or even television. it would be a great loss.
